Message from the founder Chairman

It gives me great pleasure to share a few words on behalf of our global family. Since our founding, we have remained guided by a simple yet powerful vision — to connect people, businesses, and possibilities across borders through innovation, integrity, and excellence.

In today's dynamic world, success demands agility, collaboration, and a deep commitment to sustainability. Our team continues to uphold these values, ensuring that we not only meet the needs of our clients but also contribute meaningfully to the communities and environments where we operate.

As we expand our global footprint, our focus remains unwavering: to deliver world-class solutions, empower our people, and create lasting value for all stakeholders. I would like to express my heartfelt appreciation to our customers, partners, and employees whose trust and dedication continue to drive our journey forward.

Together, we are building a future of growth, innovation, and shared success.

All the best wishes to every member at INTASL family and its patrons !

Warm Regards

Mr. M A. Muttalib

Intasl Group of Companies

Mr. M A. Muttalib (1928 ~ 2025)

JOURNEY BEGINS:

With innovation as our compass and integrity as our guide, the INTASL journey began back in 2008 driven by a vision to connect people, businesses, and possibilities across borders.

Founded on a legacy of logistics and shipping expertise, INTASL has grown into a diversified global enterprise spanning trading, ICT, warehousing, software development, engineering, logistics, real estate, manufacturing, and offshore services, including AI-driven solutions and data center management.

Our strength lies in a global network built on trust, transparency, and collaboration with leading international partners. Guided by deep industry experience from British conglomerates and a premier Japanese logistics & shipping company, INTASL continues to drive innovation and operational excellence.

Beyond business, we are deeply committed to sustainability advancing green technologies, promoting organic farming, and fostering healthier communities.

At INTASL, we believe true success lies in growth that sustains a journey of innovation and collaboration shaping a better tomorrow for generations to come.

CONTAINERIZED SHIPPING

Our **Freight Forwarding** and **NVOCC** services facilitate seamless global trade across key international routes, handling all types of containerized cargo with expertise and care. We offer end-to-end solutions, including door-to-door and last-mile deliveries, for both **Dangerous Goods (DG)** and **Non-Dangerous Goods (Non-DG)**, ensuring compliance, safety, and timely delivery at every stage of the supply chain.

(INTASL Logistics Ltd.)

GENERAL CARGO & BREAK BULK CARGO

To reduce the high costs of full vessel charters and prevent the underutilization of larger vessels, we offer breakbulk shipping as a cost-effective solution for exporters and importers. Our services accommodate various products, including:

Machinery: Such as steel products, steel girders, beams, and structural steel components.

Vehicles: Including large construction trucks and military vehicles.

Large Equipment: Used in industries like mining, oil and gas, and power generation, including turbines, generators, and drilling equipment.

Construction Materials: Such as precast concrete components, pipes, and scaffolding materials.

Project Cargo: Related to infrastructure development or industrial plant construction.

Wood and Timber: Various timber products.

Bagged Goods: Including coffee, cocoa, and grains packed in bags.

Barrels and Drums: For liquids, chemicals, and other bulk materials.

Reels and Rolls: Such as cable reels, paper rolls, and fabric rolls.

These items often consist of large and heavy cargo, making our breakbulk shipping an ideal solution for efficient transportation.

(iNTASL Shipping Ltd.)

PETROLEUM & ENERGY LOGISTICS

iNTASL's petroleum product supply operations combine industry expertise, robust logistics, and strategic partnerships to serve energy, industrial, and defense sectors with efficiency, safety, and sustainability at the forefront. We specialize in shipping and logistics for LNG and petroleum products, backed by a global network of partners and exclusive agencies to ensure efficient, reliable service.

(Eastern Alliance Energy Ltd.)

BULK SHIPPING

iNTASL specializes in bulk cargo shipping, including food grains, metals, coal, and steel coils—offering vessel and cargo aircraft charters to deliver efficient, reliable service.

(iNTASL Shipping Ltd.)

TRANSPORTATION

The transportation of goods is essential for daily life and plays a critical role in a country's economy. We provide a comprehensive range of transportation solutions, from domestic to international, delivered at cost-effective rates.

(iNTASL Logistics Ltd.)

AIR FREIGHT

Air freight offers the fastest transportation for shipping valuable cargo internationally and meeting tight deadlines. For cost efficiency, we also provide alternative sea-air or air-sea options to ensure timely delivery.

(iNTASL Air Link & Aviation Ltd.)

PORT OPERATION

iNTASL specializes in bulk and breakbulk vessel operations, container vessel operations, and ship husbanding at Chittagong Port. Our dedicated team is committed to service excellence, ensuring the highest quality and timely vessel release. In collaboration with global partners and in consultation with the Port Authority, we are now working to expand our services to include Port Container Terminal operations and cargo handling.
(iNTASL Shipping Ltd.)

LARGE & HEAVY PROJECT LOGISTICS

We manage large and heavy project cargo through a meticulous process that includes specialized heavy-lift equipment, detailed planning, skilled operators, and onboard surveyors to ensure the safe and smooth unloading of oversized, high-value cargo.
(iNTASL Logistics Ltd.)

VESSEL LIGHTERING / CARGO DISCHARGING FROM LARGE VESSEL TO SMALL BARGES

We use cargo lightering to transfer shipments from larger vessels to smaller ones, reducing draft for access to shallow ports. Ship-to-ship (STS) transfers follow strict safety protocols, ensuring efficient and secure cargo distribution to inland facilities.
(iNTASL Shipping Ltd.)

WAREHOUSING

We provide comprehensive warehousing solutions and maintain an advanced distribution network for our clients, offering third-party logistics (3PL) services for both domestic and international markets. Our specialized services include warehousing, inventory management, order fulfillment, and distribution, all aimed at enhancing supply chain efficiency.

(iNTASL Logistics Ltd.)

OFF SHORE SERVICES

Our offshore services combine technical expertise, innovative solutions, and robust project management to support the energy, defense, and industrial sectors. From offshore logistics and engineering to AI-driven monitoring and data center management, we deliver efficient, safe, and sustainable operations. Additionally, we provide trained and skilled manpower to warehousing and distribution hubs, supply chains, and energy exploration projects.

(5M Solutions)

SOFTWARE DEVELOPMENT

We deliver programming software, bespoke ERP solutions, and project-specific applications tailored to client requirements. Our expert team oversees the end-to-end process design, development, testing, and maintenance applying computer science principles to craft reliable, efficient, and functional software solutions within a structured Software Development Lifecycle (SDLC) framework.

(Systech DataSoft Ltd.)

AI/ML PERFORMANCE DRIVEN DESIGN & IMPLEMENTATION

Systech DataSoft initiatives leverage emerging technologies to enhance performance analysis and sustainable design. It emphasizes data-driven methodologies integrated into modeling and design platforms, provides tools and insights for urban building decarbonization, and features contributions from expert researchers and educators across related disciplines.

(Systech DataSoft Ltd.)

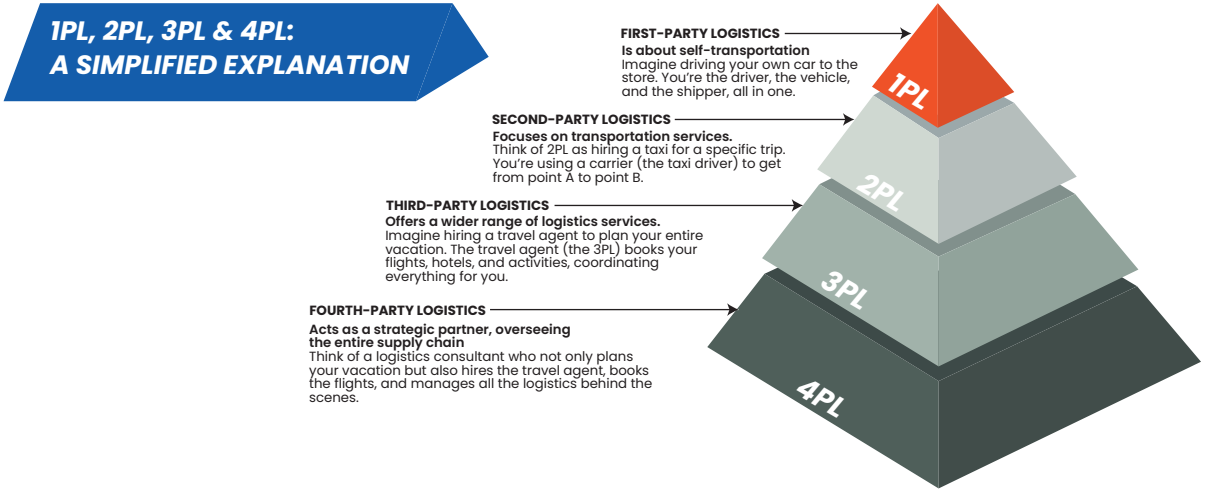

TERMINAL AUTOMATION SYSTEM

Through TAS, we collaborate with Oil & Gas supply chain partners and government organizations to provide and manage advanced terminal solutions. Terminal Automation Systems (TAS) integrate hardware and software to automate terminal processes, enhancing safety, efficiency, and accuracy in product handling, storage, and distribution via automated control, real-time monitoring, and data acquisition. Together with customers and global service providers, we are developing a platform to expand services for container terminal operations and cargo handling across multiple ports.

(Systech DataSoft Ltd.)

LOGISTICS SERVICES BY ENGAGEMENT

AGRICULTURE

We are committed to advancing safe and healthy agricultural practices by providing organic foods to our community. Our organic vegetable production emphasizes natural and sustainable methods, avoiding synthetic pesticides, fertilizers, and GMOs. Key practices include selecting optimal locations, using locally adapted and disease-resistant varieties, enhancing soil health through organic matter and cover crops, implementing crop rotation, and employing integrated pest management. Securing necessary organic certifications ensures compliance and quality assurance.

(Greenfield Agro & Farming)

REAL ESTATE

We develop real estate to optimize land use without affecting agricultural needs, creating value in residential, commercial, and industrial properties. Our approach spans site selection, planning, financing, construction, and marketing, combining legal, financial, and technical expertise to deliver profitable, market-driven assets.

(INTASL Holdings Ltd.)

LIVE STOCK

Our livestock farming prioritizes safe, healthy, and high-quality meat. By carefully managing cattle feed, we ensure superior meat with optimal fat content, positioning our products among the finest and leanest in the global market.

(Greenfield Agro & Farming)

FOOD GRAIN

We source and supply food grains including wheat, oats, corn, sugar, and chickpeas from global markets to meet the demands of the Bangladesh Government and private traders, ensuring reliable delivery and consistent quality.

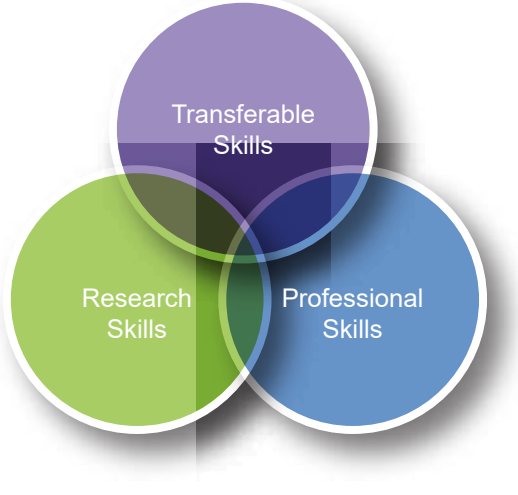

(Organics & Natural Products)

VEGETABLE OIL

We provide high-quality vegetable oils essential for safe and healthy cooking. Sourced from premium seeds, fruits, nuts, and grains—primarily as triglycerides—our offerings include soybean, corn, sunflower, and olive oils. Ideal for cooking, frying, and dressings, our oils meet strict quality standards and are sourced from Asia, Europe and North America.

(Organics & Natural Products)

ELEVATING IT EXCELLENCE

We aims to develop skilled IT professionals through structured mentorship, hands-on projects, and advanced technical training, enabling fresh graduates to contribute to innovative solutions across diverse business domains. Facilitating research and development through fresh talent while providing meaningful employment opportunities remains one of our long-term strategic objectives.
